EXCLUSIVE WALLCOVERINGS

Ogoní

We are living in a vibrant world which is affected by digitalisation in all areas of our life.

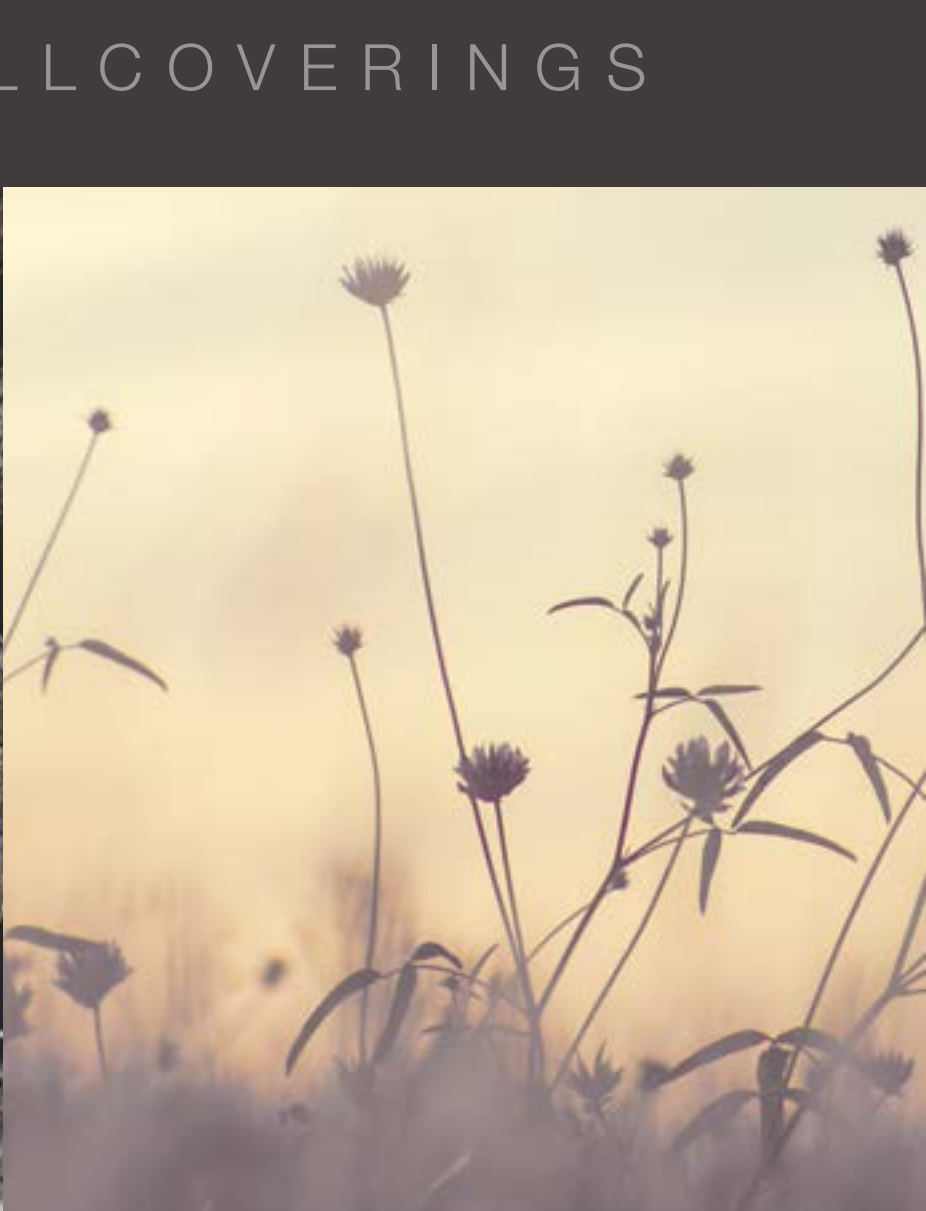

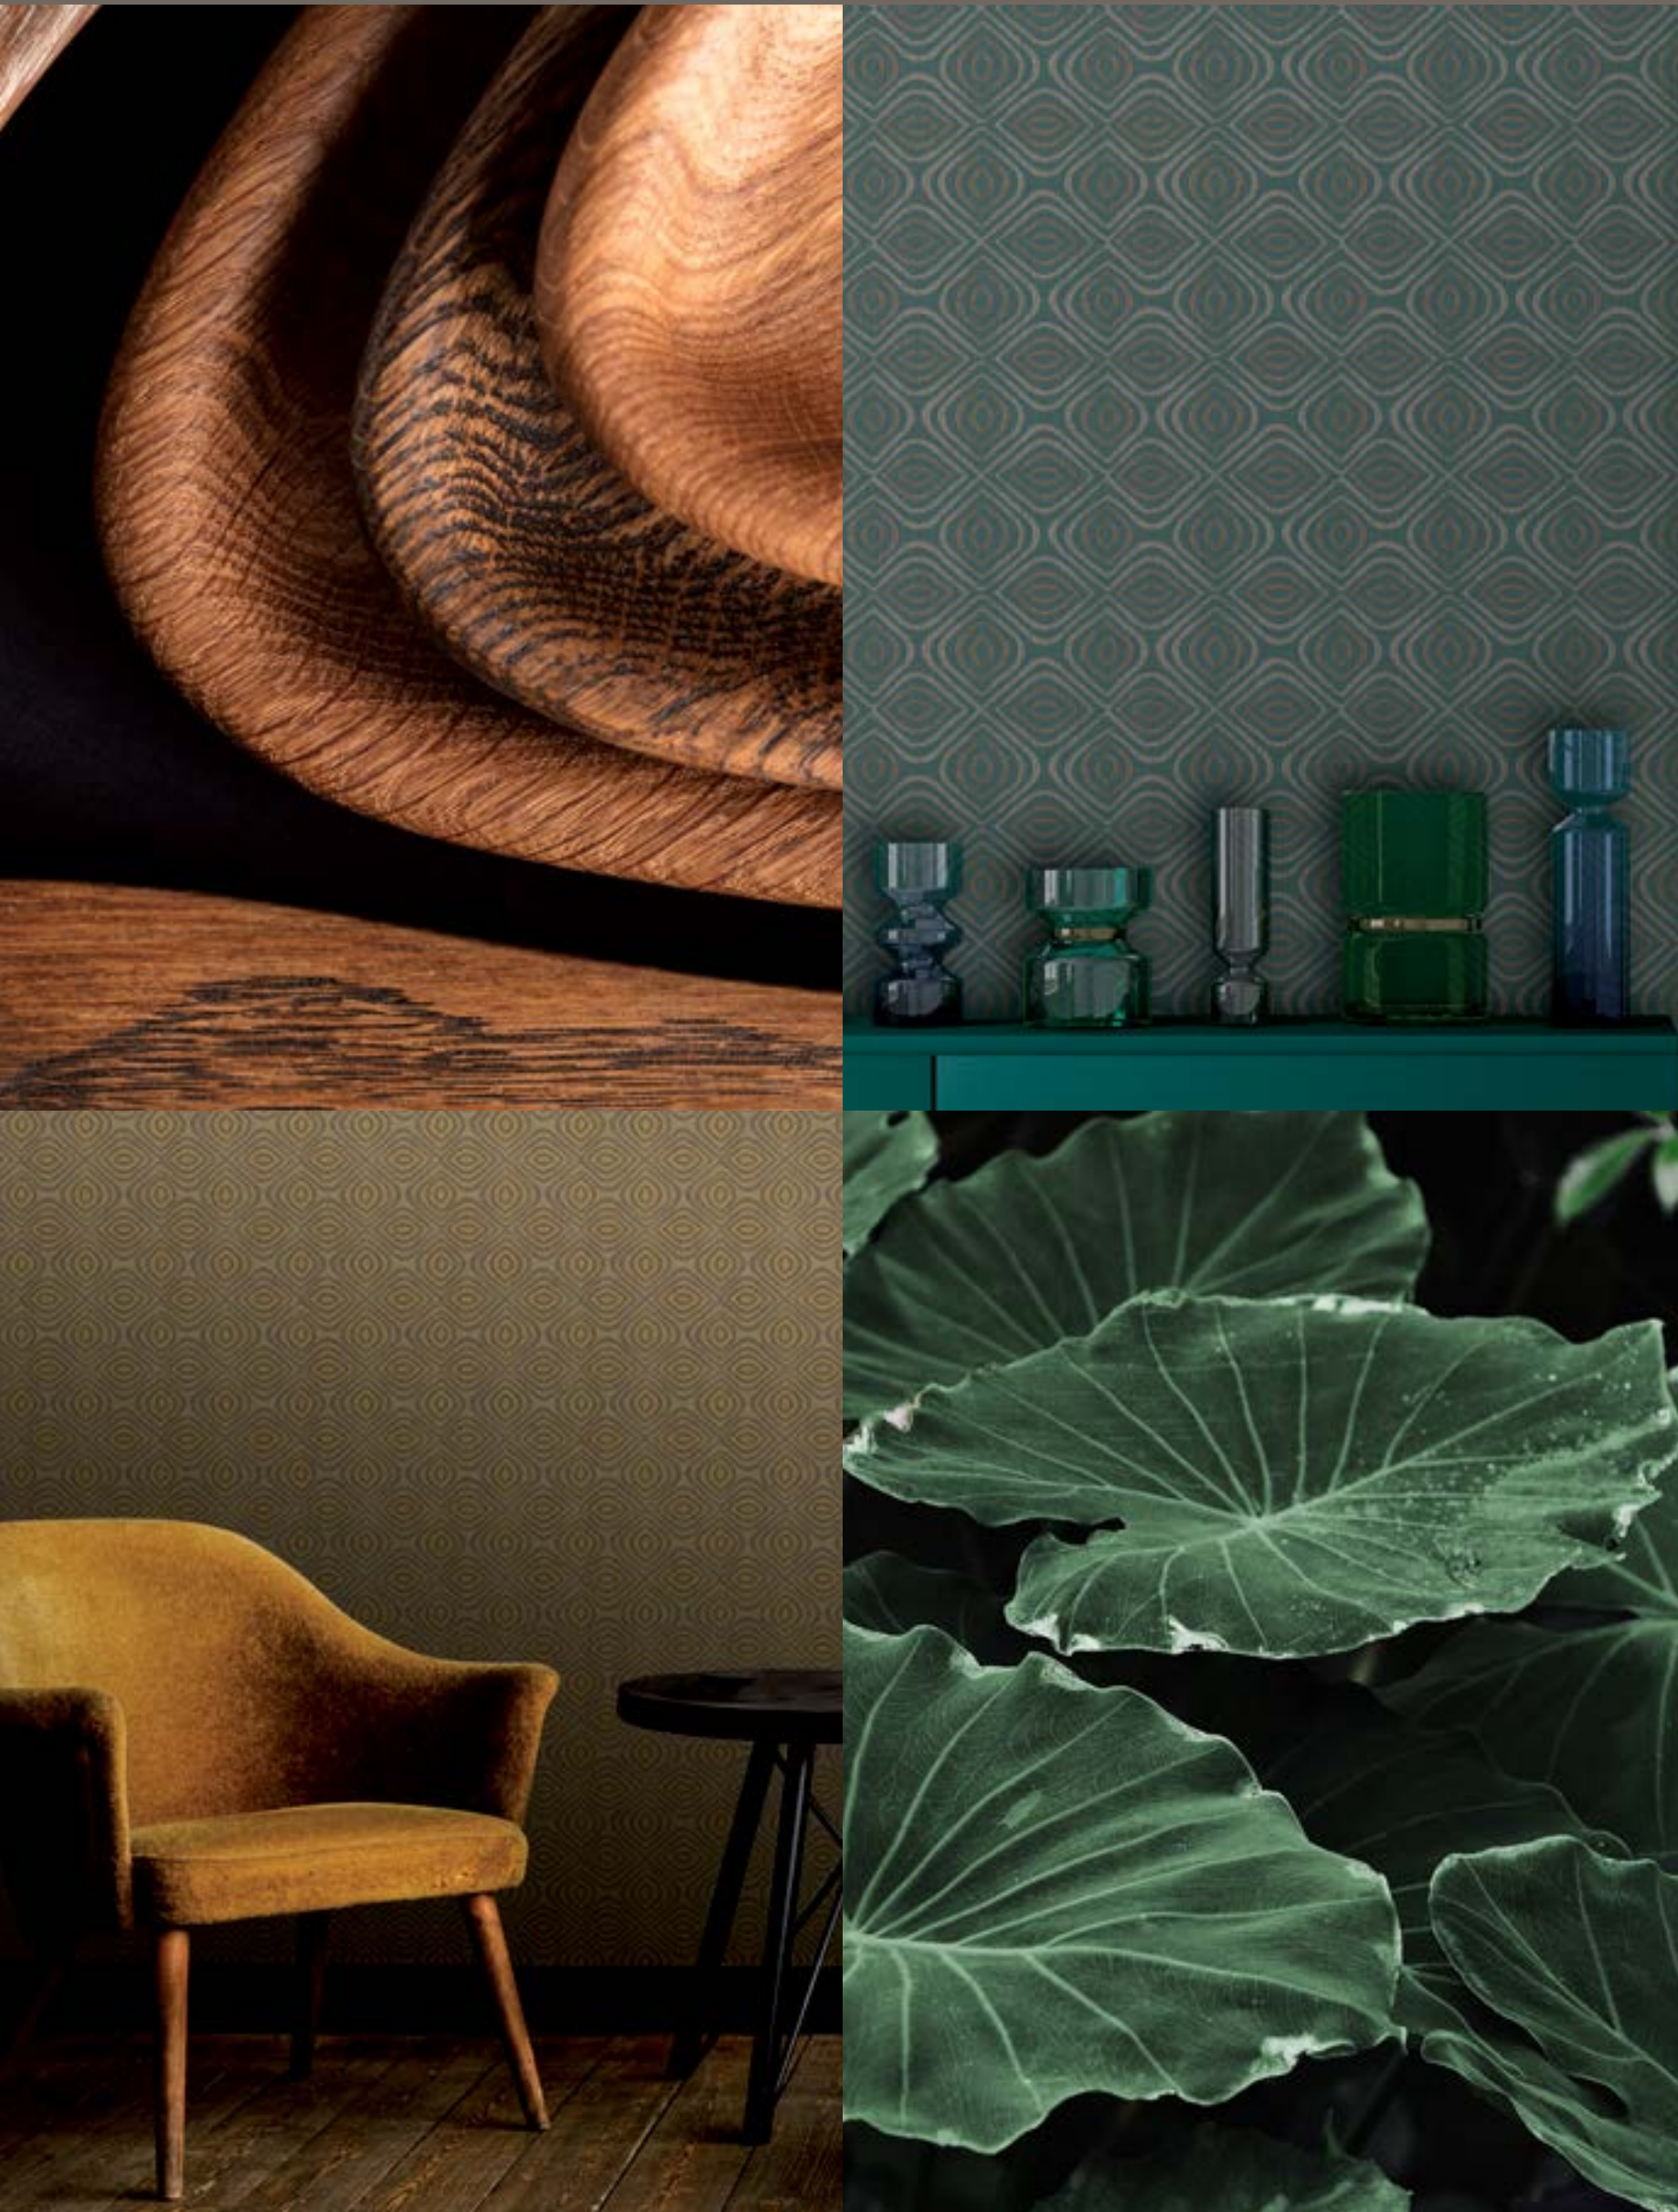

There are unforeseen possibilities to discover and new chances for our individual fulfillment. Due to the predominantly non physical, more intellectual employment our society might have to face a lack of manual skills and craftsmanship in future.

Our more virtual working environment has great impact on our well-being.

We are seeking for more physical experiences and things that appeal to our senses, especially our sense of touch.

Ogoni is a tribute to the beauty of crafts. It features the rustic surfaces from a handwoven canvas and traditional African Kente cloth.

If it is a textile patchwork or big leaves that seem to be handdrawn on a piece of jute, all designs seduce to touch and feel, either with your hands and your eyes. The complementing plain comes in 15 warm tints matching the concept colours. Such as African Gold, Smoked Brown, Brick Red, Indigo Blue, Leaf Green, Ivory and Charcoal.

Smoked Brown
